

HOME ACCESS

NEXT GENERATION
LEARNING

Get on in school Get online at home

Home Access is a government drive to help ensure more children in low income families have access to a computer and the internet at home to support their learning.

If you're a low income family you could get a grant for:

- **a computer**
- **one year's internet access**
- **service, safety features and support.**

There are no hidden catches and no financial tie-ins.
