

Dear Parent/Carer

February 2017

**Catering Account Daily Limit – Students in Years 7 to 11.**

We have set a default £3.50 maximum daily spend limit on each student's catering account. This provides reassurance that your child can have food and a drink on every school day, the cost spread evenly over the week. £3.50 is enough for your child to buy a meal deal at £2.45 (which can be purchased at morning break or lunchtime) the remainder available for an additional drink or snack item. We appreciate that for some students this limit is too low, particularly if they wish to purchase breakfast items in addition to a mid-morning snack and lunch. Similarly, you may be concerned that the default maximum daily amount is too high. If you wish to increase or decrease your child's daily limit, please return this slip specifying the alternative maximum daily spend amount that you wish to have set on their account. Your child will only be able to purchase items up to the amount of available credit on their account (if this is less than the daily limit on any given day). No maximum spend limit is set for students in Years 12 or 13.

Name of Student \_\_\_\_\_ Tutor Group \_\_\_\_\_

I am responsible for the above named child.

Please change my child's maximum daily spend limit from £3.50 to £ \_\_\_\_\_
